Melan O Derm

A next-generation dermatological cream powered by **liposomal & Niosomal ,Duo delivery technology** to enhance the penetration and efficacy of azelaic acid. This multi-functional formula targets acne, hyperpigmentation, and uneven skin tone while maintaining optimal hydration and skin barrier integrity.

Key Benefits

- **Targets Acne & Breakouts**
Helps reduce clogged pores, inflammation, and acne-causing bacteria.
- **Brightens & Evens Skin Tone**
Visibly reduces dark spots, melasma, and post-inflammatory hyperpigmentation.
- **Reduces Redness & Sensitivity**
Calms irritated skin and improves overall complexion clarity.
- **Boosts Hydration & Barrier Function**
Provides long-lasting moisture without heaviness.
- **Improves Skin Texture**
Leaves skin smoother, softer, and more refined.

20gm

Liposomal Azelaic Acid

Encapsulated for enhanced penetration, improved stability, and reduced irritation compared to conventional azelaic acid.

Niacinamide

Supports brightening, regulates sebum, and strengthens the skin barrier.

Niosomal -Tranexamic Acid

For a depigmenting and anti-inflammatory action, DERMA-VECT TRX is a powerful and targeted solution for the treatment of skin discolorations such as melasma, sunspots, and post-inflammatory hyperpigmentation. Vectorization within Niosome vesicles allows for better absorption and consequently greater effectiveness, ideal for advanced anti-blemish treatments and also perfectly suited to sensitive skin

Liposomal 4-n-Butylresorcinol

A potent skin-brightening agent targeting melanin production at multiple pathways.

Niosomal -Cystamine Cysteamine encapsulated in ultra-deformable niosome vesicles. This kind of encapsulation improves skin penetration and cosmetic effectiveness by more than 4000% compared to cysteamine alone

Hydration & Skin Conditioning Complex

- **Glycerin & Sodium Hyaluronate** – Deep hydration and moisture retention
- **Shea Butter & Emollient Esters (CCTG)** – Nourish and soften skin
- **Allantoin** – Soothing and skin-repairing properties

Recommended For

- Acne-prone and oily skin
- Hyperpigmentation and melasma
- Uneven skin tone
- Sensitive and redness-prone skin

Directions for Use

Apply a thin layer to clean, dry skin once or twice daily. Follow with sunscreen during daytime use.
